

ONLINE BANKING LOGIN INFORMATION

beginning February 15th 2010

The first time you login you will need to:

- Log in on our homepage: <http://www.bankofmontgomery.net>
- On the top, left side of our homepage you will see the "Online Banking Log In" area. You will be prompted to enter an Access ID (User Name) and Passcode (Password). Your Access ID will remain the same as your existing Online Banking User Name.
- You will use a temporary Passcode to gain access for the initial log on. Your temporary Passcode will be a combination of your Access ID and the last 5 digits of your Social Security Number/Tax Identification Number. For example, if your existing Online Banking Access ID is hsmith and your SSN is 123-45-6789, then your temporary Passcode will be hsmith56789.
- You will enter this temporary passcode on the homepage and click "Log In."
- Upon login you will be prompted to change your Passcode - select a Passcode that has a minimum of 10 characters with at least 1 alpha (a-z, A-Z) and 1 numeric character (0-9), 1 special character (e.g., !, @, #, \$) and it cannot be the same as your Access ID.
- You will then be prompted to activate additional security features that verify your identity.
- Next, the system will prompt you to enter your email address.
- Finally, you will need to read and accept a new user agreement.
- All Scheduled & Reoccurring transfers and Email Notifications currently established in Online Banking will not carry over to the new system and will need to be set up again anytime after February 15th, 2010.
